

*Make a difference  
In someone's life and in your community!  
Be A Valor HospiceCare Volunteer*

Valor HospiceCare volunteers come from all walks of life. They are homemakers, students, retirees and professionals. They come to serve individually or as service groups. They represent a variety of faiths and cultures. However, they all have one thing in common – compassion, heart and the desire to support and care for those facing end-of-life issues.

In addition to gaining the practical skills and knowledge needed to serve our patients and their families, Valor HospiceCare volunteers receive support throughout their tenure.

If you write a letter, make a phone call, rake a yard, sit quietly, feel deeply, or stick a stamp, you can make a difference in someone's life. Volunteer opportunities are available in patient and non-patient settings.

As a Valor HospiceCare volunteer, you will receive comprehensive training in a modular and flexible format that will be customized to your individual schedule.
