

Valor

Hospital Program

We will assist your hospital in decreasing your readmission rates.

Valor HospiceCare & PalliativeCare focuses on the collaborative pursuit of improved palliative and end of life hospice care with area hospitals and acute care facilities. Our hospital program creates a continuum of services across institutional and provider settings to benefit patients, caregivers, families and hospitals in many ways.

Features and Benefits of the Program Include:

- **Educating Hospitalists and Case Management Groups on the Hospice Benefit and Advance Care Planning**
- **Providing Assessment and Admissions Counseling and Services to Discharge Planners**
- **Expediting and Expanding Access to Continuum of High Quality Palliative Care Services, including Routine, General Inpatient and Respite Care**
- **Extending our Hospice - Hospital Partnership Through Improved Understanding About the Resources of Each Program**
- **Identifying Strategies for Improving Patient and Family Satisfaction Ratings**
- **Conducting post-discharge visits to patient's home to monitor patient progress and ensure effective ADLs and therapies.**
