

Valor Inpatient & Respite Program

If patients require care beyond what can be provided in the home setting, Valor HospiceCare & PalliativeCare has arrangements with local skilled nursing facilities to provide specialized care general inpatient and respite care in fully staffed inpatient units.

Goal

To meet the needs of patients and their families, at all care levels, we offer skilled nursing facility inpatient services for emergencies and respite.

Features

- We have partnered with select local skilled nursing facilities to ensure continuity of care should an authorized medical emergency require patient care outside the home setting or if family respite is desired.
- We work closely with skilled nursing facility medical staff to provide a seamless relocation that ensures consistency of care and effective pain and comfort control for the duration of the patient's stay.
- The patient and family are provided the same assurances when the patient is ready to return to the home setting.

Benefits

- All admission procedures and documentation, medical care and billing for inpatient care are managed by Valor HospiceCare & PalliativeCare.
- The patient and family remain in Valor HospiceCare's PatientCare™ program during inpatient admissions. While on inpatient status, Valor HospiceCare & PalliativeCare staff will continue scheduled visits and support for patients and families.
